STANDARD "T" HANDLE CLAMPS

| Standard "T" Handles | |
|----------------------|------|
| P/N | Size |
| 401 | 1" |
| 405 | 2" |
| 410 | 3" |
| 420 | 6" |
| 430 | 9" |
| 440 | 12" |

- Multi-purpose clamps combine the best features of ordinary "C" and parallel clamps.
- Free-floating jaws adjust to un-parallel surfaces.
- Will not "walk off-center" when pressure is applied against jaw, because there is no unsupported screw or loose pad.
- All clamps are of rugged construction.
- Provides new freedom of movement. Eliminates distorting and twisting action of conventional clamps. Plus, it provides three different gripping surfaces.
- Copper plated jaws and screws are ideal for welding.
- Kant-Twist clamps weigh approximately half as much as comparable "C" clamps.
- ALL CLAMPS CLOSE COMPLETELY.

About Us

Kant-Twist in Action

Feedback

DEEP THROAT JAW OPENING CLAMPS

Deep Throat Clamps allow for a deeper grab on the clamped object(s).

| Deep Throat Jaw Clamps | |
|------------------------|----------|
| P/N | Size |
| 407 | 2 1/2" D |
| 415 | 4 1/2" D |
| 421 | 6" D |
| 435 | 10" D |

- Multi-purpose clamps combine the best features of ordinary "C" and parallel clamps.
- Free-floating jaws adjust to un-parallel surfaces. Will not "walk off-center" when pressure is applied against jaw, because there is no unsupported screw or loose pad.
- All clamps are of rugged construction.
- Plates are made of high tensile steel.
- Provides new freedom of movement. Eliminates distorting and twisting action of conventional clamps. Plus, it provides three different gripping surfaces.
- Copper plated jaws and screws are ideal for welding.
- Kant-Twist clamps weigh approximately half as much as comparable "C" clamps.
- ALL CLAMPS CLOSE COMPLETELY.

| 405-1 | 2" |

- Round handles provide an alternative to standard "T" handles.
- Round handles provide the ability to more finely tighten the clamp pressure.
- Easier to use in some situations.

UNIVERSAL "NO MAR" CLAMPS

Round Flat Pads for Soft or Fine Finishes.

All the famous **Kant-Twist** features
plus large, flat round pads.

Will not dig into soft wood, plastics, aluminum,
etc.

Superior to "C" clamps.

The **Kant-Twist** design brings the jaws together
without the turning or twisting of screw-type
clamps.

| Round Jaw Pads | |
|----------------|--------|
| P/N | Size |
| 401-4 | 1" |

WEAVER GRIP

A HIGH QUALITY HANDLE ACCESSORY

Makes repetitive use much easier!
 Apply maximum pressure with less effort!
 Very durable!.
 Taps easily on and off!
 Made from high quality ABS plastic.
 Comfortable Grip for ease of use.
 All users should have a set!
